THE TWICE RETAIL GUIDE TO

# *Speaker Solutions* *for* THIN *TVs*

SEPTEMBER 2011

### ► Evoke Ultra Slim Soundbar

Super-thin speaker technology makes this model under 1.1-inch thin. This sleek device delivers 160 watts of powerful audio with virtual surround sound and a 2.4GHz wireless active subwoofer that can be placed virtually anywhere in the room. Two HDMI inputs make setup easy and allow connection of multiple HD devices at one time. Built-in EQ settings for Movies, Music, News and Surround provide the best sound for whatever you're watching. This 40-inch tabletop or wall-mountable soundbar is perfect for any ultra-slim flat-screen television on the market.

### ► Evoke 3D Soundbar

Sonic Emotion 3D sound technology in this 5.1-channel, 160-watt soundbar turns every seat into the best in the house—delivering crystal-clear true surround sound for everyone in the room. It features a dock for charging, playing and watching content from iPod/ iPhone/ iPad on your TV while a free app provides FM Radio and more. Unlike conventional surround units, calibration is automatic and the optical input makes for simple plug-and-play setup.

### ► Core Soundbars

Haier's 2.0-Channel Soundbars—in 20- and 32-inch sizes—deliver a fusion of power, video and sound. An integrated iPod/iPhone/iPad dock plus video output let you charge, play and watch movies on your TV. A free app provides FM radio, alarm functionality and more, including Internet radio on the 32-inch edition. These tabletop and wall-mountable models are ideal for smaller flat-screen televisions.

### WHO WE ARE

Haier, a world-leading electronics manufacturer with over \$20 billion in worldwide sales, is the Official High Definition Television of the NBA. Haier believes in innovating with our customers' needs in mind. We focus on making technology easy for the consumer in order to enhance their entertainment experience. Our Haier Audio line of soundbars, docking stations and accessories expands on our core business of HDTVs to provide consumers value, great sound quality and ease-of-use. Our soundbar selection responds to a demand for thin-speaker solutions for ultra-thin HDTVs as well as a growing interest in soundbars with multiple functions.
